

The diagram illustrates a curved roof structure composed of six segments, each labeled with a compass direction and a joint number. The segments are arranged in a sequence from left to right, connected by joints. The segments are labeled as follows:

- AS West (Joint 1)
- AS Northwest (Joint 2)
- AS Nord (Joint 3)
- AS Nord (Joint 4)
- AS Ost (Joint 5)
- AS Süd (Joint 6)

The segments are connected by joints, and the entire structure is shown within a rectangular frame. The segments are colored in a light blue/grey shade, and the joints are marked with small circles and labels. The segments are arranged in a curved path, with the AS Süd segment at the bottom right and the AS West segment at the top left.
